

# **ABOUT THE COURSE (2 DAY)**

## **ISO 9001:2015 Transition and Implementation**

### **ABOUT THE COURSE**

The revision to ISO 9001 results in a new structure, introduction of new concepts and requirements, and introduction of new terms and definitions. This course offers an in-depth discussion of the changes and requirements and provides an opportunity to explore applications of the 2015 version of the standard. The course includes a discussion of the following:

- Why the changes?
- What are the main differences between the old and new versions of the standard?
- What is the process approach as it applies to ISO 9001:2015?
- New requirements and concepts
  - ✓ Changes in terminology
  - ✓ Changes in structure of the standard
  - ✓ Changes in scope of applicability
  - ✓ Context of the organization
  - ✓ Needs and expectations of interested parties and how this impacts the management system
  - ✓ Risk-based thinking
  - ✓ Documentation requirements
  - ✓ Exclusions
  - ✓ Impacts on the value chain
- What is the impact to my company?
  - ✓ What should we do to address the changes?
  - ✓ How will this impact internal audits and management reviews?
  - ✓ What is the implementation timeline and required actions for certified companies?

Case studies and exercises are designed to provide “hands on” experience with the standard, and allow students to work with ISO 9001:2015 and apply the standard to realistic situations.

**A copy of ISO 9001:2015 is provided with the course materials.**
